MANITAL
maniglie italiane

Manital was started near Brescia, Northern Italy, in 1990 to manufacture brass door and window handles. In 2004 a new plant was opened in Gavardo, also near Brescia combining both the offices and the production process. 100% Made in Italy design and production, to combine aesthetics with innovation and quality. Manital ensures that each single product is manufactured with the utmost care using the best materials and technologies. The design of Manital products comes as a result of their collaboration with internationally renowned designers and architects such as Mario Mazzer, Doriana and Massimiliano Fuksas, Sottsass Associati, Pedrizzetti Associati, Maurizio Giordano and Roberto Grossi, Davide Mercatali, Valentina Downey, Itamar Harari and Studio Hot Lab.
